

The Squeal: A year in review

Top 5 podcasts of 2019

Happy New Year!

A new year brings a fresh start and new opportunities. As we set new goals for 2020, let's take a moment to look back at the top 5 'The Squeal' podcasts of 2019.

Click on the title to listen!

[Early Pig Care](#)

Early pig care is important, but how critical is it to the success of the operation? Find out when host Ned Arthur discusses early pig care with Matt Grimm, Cactus Family Farms; Dr. Fernando Gomez, PIC Wean to Finish Technical Services Specialist; and Joe Koenig, PIC Account Manager.

[Disease Elimination on Swine Farms](#)

Disease elimination on farms is becoming more important as the industry works to reduce antibiotic use. Host Ned Arthur leads a discussion with Dr. Bill Hollis, Carthage Veterinary Service; Dr. Jer Geiger, PIC; and Dr. Jean Paul Cano, PIC.

[Genetic Dissemination: Delivering genetics to our customers](#)

How is genetic improvement disseminated from PIC to your breeding herd? Host Ned Arthur talks with Todd Marotz, Wakefield Pork; Gerardo Lopez, PIC North America Supply Chain Director; and Lindsey Case, PIC Genetic Services Manager.

[Feeding the PIC Sow, Part 1](#)

Considerations in feeding the PIC sow through gilt development are discussed with Dr. Steve Dritz, Kansas State University; Dr. Uislei Orlando, PIC; and Dr. Marcio Goncalves, former PIC nutritionist and founder at Swine.It.

[Decision Making in Diet Formulation](#)

What should you take into consideration when making diet formulation decisions? Host Ned Arthur leads an in-depth conversation with Ani-Tek Group's Dr. Aaron Gaines, along with PIC's top nutrition specialists Wayne Cast and Dr. Uislei Orlando.
